PROJECTS as an intern

Company website | Next.js, React, Tailwind, Framer Motion

- Contributed to the development of a responsive website with modular UI components and animated sections.
- Assisted senior developers, while deployment and production release were overseen by the lead team.

Online Booking System | Next.js, React, Supabase, Shadcn/ui, Tailwind

- Designed booking workflows with CRUD operations, authentication, and an admin dashboard.
- Implemented a calendar interface and analytics cards to improve management efficiency.

FlashYourMeme | ASP.NET Core MVC, C#

- Investigated and resolved production issues across Models, Views, and Controllers.
- Enhanced system stability by fixing backend logic and improving UI consistency.

Ferra Ag (Capstone Project) | Flutter, Dart, Firebase

- Led backend development for a smart agriculture web application.
- Delivered secure CRUD functionality and role-based access control using Firebase Authentication.

EXPERIENCE

GoApricot

Software developer (Intern)

Calgary, AB

July 2025 – Present.

- Assisted in the development of company websites and booking systems using Next.js, React, and Supabase.
- Supported bug fixing and feature improvements in a production .NET Core MVC project.
- Collaborated within Agile sprints alongside designers and senior developers using Jira.

GC Maintenance and Engineering Company Limited (GCME)

Inspection engineer, Plant reliability and integrity

Rayong, TH

Jan 2020 – Jan 2021.

- Created automated Power BI dashboards, reducing reporting time by 35%.
- Analysed inspection data from high-risk equipment to prevent operational failures.

Senior Aerospace (Thailand) Ltd.

Project Engineer (Intern)

Chonburi, TH

June 2018 – July 2018.

- Conducted workflow analysis and proposed changes, achieving a 10% increase in efficiency.
